

REPELS RAIN & IMPROVES VISION

Enduro Shield

AUTO GLASS

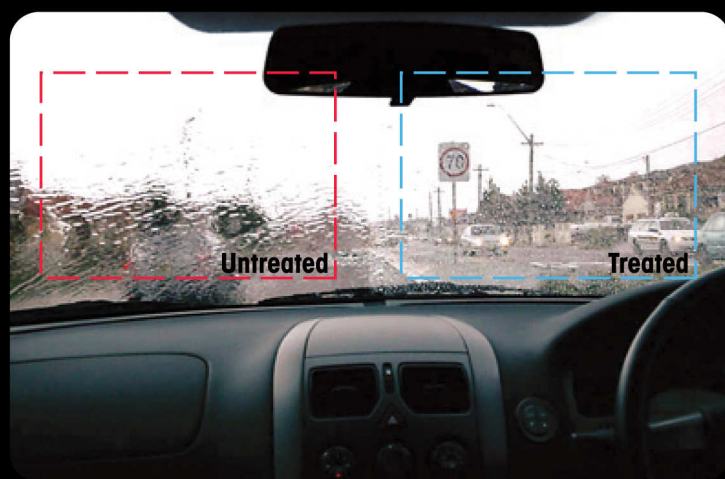

NANOTECHNOLOGY RAIN REPELLENT

OPTIMUM PERFORMANCE

EnduroShield® uses state-of-the-art nanotechnology to transform automotive glass into a high performance, ultra-long lasting rain repellent surface. This non-stick invisible coating turns the rainwater into beads, which are easily swept away, ensuring clearer vision in wet weather driving.

FEATURES

- Dramatically improves vision in wet weather driving
- Repels rain, dirt & oil
- Allows easier removal of ice
- Improves optical clarity & safety
- Allows easy removal of bugs
- Reduces frequency of cleaning
- Protects against water mark stains
- Improves efficiency of windscreen wipers
- Simple to apply; on new or old windscreens
- Lasts up to ten times longer than other coatings

DRAMATICALLY IMPROVES VISION

The left-hand side of the windscreen has not been treated, making objects difficult to see.

The right-hand side has been treated with EnduroShield®, giving dramatically improved visibility during wet weather driving conditions.

LASTS UP TO 12 MONTHS

UP TO 10 X LONGER THAN OTHER COATINGS
